RE: SAFE2SAY Something  
Date: 21 January 2019

In December a team of district administrators participated in a state mandated training regarding the **SAFE2SAY Something Program**. This program is now mandated by a PA law requiring all school districts to participate. The SAFE2SAY program is a way to help districts, law enforcement, and social services better serve our children. This program is designed to allow any person to report information about the health, safety, or well-being of a student or place to share what they know in a fast and appropriate way.

Please know that our faculty and staff have been trained on this program as well as our student population in grades 5-12.

To meet the needs of our community, TASD will provide an overview and training for **S2S Something** on **JANUARY 30, 2019 at 6:30 pm** for all interested parties in our district auditorium. The guidelines for the parent/guardian/community meeting will explain how to properly share any information that is important regarding the health, safety, and well being of our total school community. Questions should be focused on the program or what to report. If you have information regarding a specific instance please hold direct conversations with an employee of the district.

Respectfully,

Dr. Stephen P. Toth, Ed.D.  
Assistant Superintendent  
Tamaqua Area SD
