PHEAA has a great vision of the future. It’s a future where Pennsylvania’s workforce is well educated, our community prospers, our institutions of higher learning thrive and where every aspiring student has the power to discover a brighter future.

PHEAA’s bigBrain is about more than money. It’s about all the programs that are making Pennsylvania smarter. The $200 million we give to Pennsylvania each year through scholarships, grants, outreach, loan forgiveness programs and many other services allows Pennsylvania students to reach their full potential. To go beyond. To discover.
